Subject: FW: EtO/NATA question

Hi Madeleine and Ted,

I'm forwarding you an email I had sent to Darcie, and just wanted see if you either of you could help me. I haven't heard back from Darcie and thought she might be out of the office.

Thanks for any help!

Jessica

Subject: EtO/NATA question

Hi Darcie,

I know I have emailed you before about this, but is there any way to get the final NATA block level risks for facilities? We've been asked to look at the facilities that had over a 1000 in a million risk at the block level, and from the latest file I have (shows the V2 block level risks) we have two facilities (B. Braun and Union Carbide – South Charleston) that were over 1000 in a million cancer risk. I know when the final NATA was released, Union Carbide – South Charleston wasn't considered as one of our priority facilities for EtO, and I just wanted to see if the final block level risks had changed and were lower.

Thank you!
Jessie
